

UKRAINET Webinar Series

#Stand With Ukraine: International Science Landscape First Orientation and Useful Tips

The Ukrainian Academic International Network ([UKRAINET](#)), in cooperation with the [#Science for Ukraine](#) launches a series of short informational webinars (ca 1 h each), in Ukrainian, aimed at displaced Ukrainian researchers, who now found themselves in different countries all over the world. Although there are [numerous support programs](#) offered by international and national research funding agencies as well as individual universities, foundations, research institutes, etc. it could be quite daunting for an outsider to figure out how each country's science and HE system "ticks". Following the online seminar [For Ukraine: The German Science System - Overview and First Orientation](#), organized by the jobsite [academics](#) in cooperation with the [German Scholars Organization](#) on 18 May 2022 ([presentation](#) and [recording](#)), to which the UKRAINET has contributed, we would now like to go further and address other relevant countries. Our speakers are researchers of Ukrainian origin who have established successful research careers outside of Ukraine and could provide their first-hand insights on academic systems and research culture in different countries.

Meeting ID: 883 1436 0227; Passcode: 931331

#1: Finland & Sweden

Date: Thursday, 16 June

Time: 3-4 pm (CEST)/ 4-5 pm (Kyiv)

Confirmed Speakers:

- [Prof. Anton Kuzyk](#), Ass. Professor, Department of Neuroscience & Biomedical Engineering, Aalto University, Finland
- [Dr. Taras Kucherenko](#), Research engineer, Electronic Arts (EA), Stockholm, Sweden

#2: Austria & Switzerland

Date: Thursday, 23 June

Time: 3-4 pm (Vienna)/ 4-5 pm (Kyiv)

Confirmed Speakers:

- [Dr. Tetyana Milojevic](#), Professor, formerly at the University of Vienna, Austria (2000-2021), currently: Chair of Exobiology at the University of Orléans & CNRS, Centre de Biophysique Moléculaire, France
- [Dr. Maksym Serbyn](#), Ass. Professor, Research Group "Condensed Matter Theory and Quantum Dynamics", IST, Austria
- [Prof. Maksym Kovalenko](#), Laboratory of Inorganic Chemistry, Department of Chemistry and Applied Biosciences, ETH Zürich/ Laboratory for thin films & photovoltaics, EMPA - Swiss Federal Laboratories for Materials Science & Technology, Switzerland
- [Dr. Andrii Tykhonov](#), Ass. Professor, Department of Nuclear & Particle Physics, University of Geneva, Switzerland
- [Prof. Maksym Yarema](#), Materials & Device Engineering Group, Department of Information Technology & Electrical Engineering, ETH Zürich, Switzerland

#3: Belgium, Luxemburg and The Netherlands

Date: tbc

Confirmed Speakers:

- [Dr. Oleksandra Ivashchenko](#), Postdoctoral fellow, Department of Nuclear Medicine and Molecular imaging, University Medical Center Groningen/ #ScienceForUkraine
