**Prof. Rostyslav Bilyy** at Danylo Halytsky Lviv National Medical University and his research group developed a novel blood-activating coagulator to meet the urgent need of the Ukrainian Armed Forces. Partners: RECOOP HST & Ternopil National Medical University.

**DUAG’s support of EUR 5,000** allowed to purchase necessary equipment, chemicals and other consumables to carry out an extensive R&D study aimed at establishing an efficient production line of hemostatic powders in Ukraine and optimizing the choice of raw materials for the production. **DUAG funding was made possible by a targeted charitable donation from an international researcher.**

A DUAG member, **Galyna Bila**, was responsible for blood samples and coagulation study and microscopy, while students, displaced by war, **Sofiya Ababilova** from Mykolaiv and **Valentin Utka** from Sumy, devoted all their time to the chitosan production process.

Now the hemostatic powders are distributed to the frontline soldiers with more than **400 unit-packs** already sent and another **700 being in production**.

To support the production of hemostatic powders to save lives: **Contact Prof. Bilyy at stopblood.ua@gmail.com**
March 2022: DUAG member Prof. Dr. Yuri Gleba has donated EUR 100 thousand to the Armed Forces of Ukraine

Wildau Welcome IT School

9 May – 19 August 2022, hybrid

Organized by DUAG members Prof. Dr. sc. hum. Marcus Frohme and Prof. Dr. Alina Nechyporenko

The school aimed to offer BSc & MSc students in field of IT/computer science who fled from Ukraine and had to interrupt their studies to continue their education at TH Wildau (Berlin) in order not to lose a semester at their home university, up 30 ECTS

Supported by the Federal State of Brandenburg

Vyshyvanka Day at TH Wildau

19 May 2022
Projects supported by the DAAD funding programme "Digital Ukraine: Ensuring academic success in times of crisis (2022)"

Promotion of digital teaching at the universities in Kharkiv, Sumy, and Vinnytsia

- University of Duisburg-Essen (UDE), Karazin Kharkiv National University, Sumy State University and Vasyl' Stus Donetsk National University
- Prof. Dr. Matthias Epple and Prof. Dr. Heike Roll

It offers several virtual courses in Natural and Social Sciences to the displaced Ukrainian students enabling them to complete their study despite the limitations caused by the war.

With the support of the involved scientists/researchers and lecturers working in the German and Ukrainian groups, a suitable virtual platform for online teaching in different disciplines will be created, so that virtual lessons will be held in Ukrainian both from their home institutions and from abroad.
